Veteran Owned

12/20/16

Green Building Technologies Company (GBT) brings a water-based epoxy to the construction and paint industries "today instead of tomorrow". As a direct result of 12 years of R&D as well as ASTM and other test results from independent laboratories, A+ is now available.

(Certified documentation available)

GBT is incorporated in the State of Florida since 2012.

Henry V. Lione, MA: Founder, *President, CEO:*

US Army Veteran

David S. Lione, MBA, CGFM: *Vice President, CFO:*

US Air Force Veteran

Susan B. Lione, MBA, CGAP, CCSA, CFSA: *Sec./Treas.*

US Air Force Veteran

GBT formulates and distributes an environmentally friendly "green" water-based epoxy that may be mixed with all cement and any water-based paint products.

Benefits & Results:

- * An algae, mold/fungi water-proof product.
- * Increased adhesive, pencil, psi properties.
- * Non-toxic, non-carcinogenic, bio-degradable.
- * No fumes, no vapors, no special ventilation.
- * Fire Spread "A" rating.
- * Suitable to brush, roll or spray.
- * Anti-corrosive for interior/exterior coating.
- * Paint/cement products adhere to most surfaces:
i.e.: wood, metal, Styrofoam, cement block, etc..
- * Clean tools, work area with plain water.
- * Prevents marine growth on vessels, wharfs, docks.

Packaged in ounce, quart, gallon, 5 gallon, 55 gallon drums, totes, tankers, shipping containers for distribution through out the United States and all continents.
